International Consultants Day 2026

The ICMCI Code of responsible Use of Artificial Intelligence for Management Consultants

Why is this AI Code necessary?

- AI = Extraordinary Opportunities and Serious Risks in an Unregulated Profession
- Our general Code of Conduct required a specific addition to cover the unique responsibilities of AI
- To demonstrate ICMCI's Professional Leadership

7 Core Principles

- Human Responsibility and Oversight
- Fairness and Non-Discrimination
- Transparency to Clients and Stakeholders
- Privacy, Data Protection and Confidentiality
- Safety, Robustness and Security
- Accountability and Documentation
- Sustainability

Other Content

- Individual and Organisational Responsibilities
- Permissible and impermissible uses;
- Client Communication and Consent;
- Data Protection, Confidentiality and Intellectual Property;
- Societal and Environmental Sustainability;
- Methods of Implementation, Compliance and Enforcement;
- Advising Clients on AI

Thank you!
