

IMC-Nigeria's Promotion of CMC Designation

The Institute of Management Consultants, Nigeria (IMC-Nigeria), established in 1983, is the body of professional management consultants approved by the Federal Government of Nigeria. The Institute is committed to creating, maintaining, extending and promoting the highest standards of management consulting practice, ethics, competence and client service in Nigeria and beyond.

IMC-Nigeria promotes CMC Designation as the badge of a professional, competent and trustworthy management consultant.

One of ways through which IMC-Nigeria promotes CMC Designation is by collaborating with holders of CMC Practicing Licence to organize CMC Certification Workshops periodically..

The four-fold thematic focus of the CMC Certification Workshops is on the prescribed CMC Standard which comprises:

- i. CMC Competence Framework
- ii. CMC Common Body of Knowledge
- iii. CMC Code of Professional Conduct
- iv. Additional Pre-requisites

Basically, IMC-Nigeria issues the CMC Practicing Licence to management consultants, who have attained thirty-five (35) Credit Hours of Continuing Professional Development Programme (CPDP), and have met the CMC-Global's Standards Registration Requirements of a Certified Management Consultant (CMC). The 2018 Schedule of CMC Certification Workshops is presented here below:

Month	Abuja	Lagos	Port Harcourt
